

Metal Bonder

Metal Bonder for a lasting metal-resin-bond.

Features	Features
no light-curing necessary	quick and easy processing
very good bonding values	universally applicable on all metals lasting bond
very good brush behavior	homogenous metal coating

Packaging size: 5 ml bottle

Storage: 10-25°C

Shelf-life: 5 years

Metal Bonder

Metal-resin

Adhesion after 48 h storage at 100°C
in MPa

	Variante 1	Variante 2
Titanium	23,3	27,5
Gold	21,2	29,9
Cr-Co	22,4	25,1

Variante 1: In combination with GDF C&B opaker and GDF C&B composite

Variante 2: In combination with GDF Metal Connect, C&B opaker and GDF C&B Composite

Version 08/2015
