

Metal Connect

Universal bonder for metal primer and opaque.
Metal Connect improves the chemical bond between the primer and opqaer and contributes to a simple and stable bonding.

Features	Benefits
compatible with all conventional opaquer systems	universally applicable
Bonding amplifies for metal primer/ opaque-bonder or for "conventional" powder/liquid system.	much safer bond
increases metal primer/opaquer-bond	homogenous coating of the metal surface
very good brush behavior	easy handling
conventional initiator system	makes it compatible with competitors' light-curing systems

Packaging size: 3 g-syringe

Storage: 10 -25°C
